EDUCATION

Mandisa Shiceka High. S
Grade 12 (2016)

Belgium Campus Itiversity
2021-2024 (currently
studying)
Bachelor of Computing

Vaal University of
Technology
2017-2019
Diploma in Metallurgical
engineering (Incomplete)

PROFILE

Final year Bachelor of Computing student with extensive training in full stack of software development. I have a passion for developing innovative software solutions. Proficient in various programming languages such as C#, HTML, CSS, JAVA SCRIPT, JAVA, and SQL. I believe that I am a team player and have shown through my studies that I can deliver high quality work and achieving exceptional results.

EXPERIENCE

SYBRIN (PTY) LTD: APLLCATION SUPPORT ENGINEERING INTERN.
APRIL 2024 – ONGOING

I worked closely with the machine learning team to develop and refine algorithms for validating and correcting errors on bank statements. My responsibilities included training machine learning models to enhance accuracy and efficiency in error detection and correction. Additionally, I gained hands-on experience with Sybrin Know Your Customer (KYC) solutions, where I contributed to the implementation and optimization of KYC processes to ensure compliance and streamline customer verification.

SKILLS

Software Development life Cycle, Database Administration and Management, Algorithm and Data Structures, Programming Languages, Communication Skills, Teamwork and Collaboration, Problem Solving and Analytical thinking
